

PUPPY KINDERGARTEN

Classes run for one hour, once a week, for six weeks. In this class we will discuss housebreaking your pup and how to curtail those unwanted puppy behaviors such as nipping and chewing. Some beginner obedience commands will be introduced in this class to prime the puppy for Family Pet I. Puppy Kindergarten will also address grooming and health care and focus on socializing your pup. Socialization in the early stages of your puppy's life is essential for him to become a mentally healthy and stable life long companion. Written permission from puppy's veterinarian is required for class. You can download the permission slip form off the website www.DogGoneGoodTraining.com. or request it to be faxed or mailed when you call to register: 708-220-9511. **First class is orientation: Please do not bring your dogs to the initial class.*

DO YOU HAVE DOGGIE DILEMMAS?

If so, then this is the class for you. This class will address the most common doggie dilemmas: potty training, playful nipping, and destructive chewing. The class will include canine theory (how dogs think and learn) and general behavior modification techniques that you can apply to other unwanted behaviors. It does not matter how old your dog is; if you have these dilemmas then this class can help. Please do not bring your canine friends. This is a seminar for people to learn the proper techniques to use at home. Dogs will not be allowed in class.
